

## **PIG® Super Absorbent Sock**

PIG210 3.25" x 42", Absorbs up to 1 gal. per sock,  
24 socks

Control high-volume machine leaks with our most absorbent general-purpose sock.

- Extra-thirsty, formable socks hug corners and walls, surround higher-volume machine leaks and contain spills to keep workers safe
- Cellulose filler is highly absorbent for big leaks and spills; super absorbency means that you replace them less often
- Stitch-bonded, polypropylene skin resists bursting; reduces dust and holds in liquid, even when saturated
- Absorbs most common industrial liquids - oils, water, solvents, coolants and more; not recommended for acids, bases or other corrosive liquids
- 95% recycled cellulose filler is ideal when green products are desired
- Wringable for reclaiming up to 65% of absorbed liquid
- Can be incinerated after use to reduce waste or for fuels blending
- Nobody knows more about socks than New Pig
- we invented them!

### Specifications

|                  |                                                                 |
|------------------|-----------------------------------------------------------------|
| Fluid Absorbed   | Oils, Coolants, Solvents, Water – Universal                     |
| Color            | Gray                                                            |
| Dimensions       | ext. dia. 3.25" x 42" L                                         |
| Recycled Content | 95% Mixture of Pre- and Post-Consumer Recycled Cellulose Filler |
| Absorbency       | Up to 24 gal. per box                                           |
| Absorbency per   | Up to 1 gal. per sock                                           |
| Filler           | Flame Retardant Cellulose                                       |
| Skin/Outer Mesh  | Skin - Polypropylene                                            |
| Sold as          | 24 socks per box                                                |
| Weight           | 29.5 lbs.                                                       |
| # per Pallet     | 16                                                              |
