

LOCK-ALIGN
DRAWER ORGANIZER SYSTEM

Installation Instructions

Effective May 2018

1. Measure the interior length and width of your drawer.
2. Decide whether you want your organizers to run front to back or side to side.

NOTICE

When assembled, the Starter Kit measures 14⁵/₁₆" wide x 13" deep, and one wide tray section equals the width of two interlocked regular tray sections.

3. Determine which components you need for the configuration you want. Set up some of the components to get a sense for how they will fit and to measure where they will need to be trimmed.

⚠ WARNING

To avoid injury, exercise care when using scissors.

⚠ CAUTION

Failure to use the grid system on the underside of the tray sections as a cutting guide is likely to lead to misalignment and unsatisfactory results.

4. Mark and cut the tray sections to fit your drawer using standard scissors. Cut along the grid pattern on the bottom to preserve continuity of spacing and alignment. **Fig. 1.**
5. Connect the tray sections by fitting the notches under the wall edge of one tray section onto the rectangular teeth on the lip edge of another. The two interlock to register the sections so the dividers and bins will be perfectly aligned. **Fig. 2.** (You can use double-sided tape under the tray sections to hold them in place, if you want.)
6. Install the dividers and bins in the desired locations. Splines on the divider edges and the bin sidewalls slide into slots in the tray section walls, and the hooked tops fit over the ridges at the top of tray sections for a secure connection. **Fig. 3.**

GENERAL SAFETY WARNINGS

This product is designed for specific applications as defined in the instructions and should not be modified and/or used for any other applications. Before using the Lock-Align Drawer Organizer System, read, understand and follow all instructions and safety information provided. **KEEP THESE INSTRUCTIONS FOR FUTURE REFERENCE.**

- > Always confirm that you are using the most recent version of the Instructions and safety warnings for your product. To find the most recent version, find the product page on Rockler.com and click on the link to the Instructions.
- > For any tool used in conjunction with this product, always read, understand and follow the instructions and safety warnings in the owner's manual for that tool. If you do not have the owner's manual, obtain one from the tool's manufacturer before using it with this product.
- > Before using this product, review and verify that all tools to be used with it have safety equipment installed and are in proper working order as defined by the tools' owner's manuals.
- > Do not use this product until you have read and are confident you understand the instructions.
- > Do not use this product in any manner other than what is described in these instructions. Use only recommended accessories.
- > Do not modify the product in any way unless instructed to by the instructions.
- > Remain alert and use good judgment when using this product. Do not use this product if you are in any way impaired by medications, alcohol, drugs or fatigue.
- > Dress appropriately and remove all jewelry, secure loose clothing and tie up long hair before using this product.
- > It is the sole responsibility of the purchaser of this product to ensure that any third party whom you allow to use this product reads and complies with all the instructions and safety precautions outlined in this manual prior to use.
- > Maintain these instructions and warnings as long as you own the product. Keep this booklet in a place where it will be readily available for reference.
- > The user assumes all risk and responsibility for the proper use of this product and for ensuring product suitability for intended application.
- > Always wear safety glasses in compliance with ANSI safety standards and hearing protection and follow all standard shop safety practices, including:
 - Keep your work area well lit and clean;
 - Unplug all power tools before making any adjustments or changing accessories;
 - Use dust collection tools and dust face masks to reduce exposure to dust;
 - Use accessory safety equipment such as featherboards, push sticks and push blocks whenever appropriate;
 - Do not use power tools in explosive environments (e.g., in the presence of flammable liquids, fumes or dust);
 - Keep children and bystanders away from the tool operating area;
 - Maintain proper footing at all times and do not overreach;
 - Do not force woodworking tools.
- > These warnings and instructions do not represent the total of all information available regarding tool safety, use and technique. Please read the full manual before using this product and always seek out opportunities to learn more and improve your skills and knowledge.

⚠ WARNING: Drilling, sawing, sanding or machining wood products can expose you to wood dust, a substance known to the State of California to cause cancer. Avoid inhaling wood dust or use a dust mask or other safeguards for personal protection. For more information go to www.P65Warnings.ca.gov/wood.

⚠ DANGER

Danger indicates a hazardous situation that, if not avoided, will result in death or serious injury.

⚠ WARNING

Warning indicates a hazardous situation that, if not avoided, could result in death or serious injury.

⚠ CAUTION

Caution indicates a hazardous situation that, if not avoided, may result in minor or moderate injury or property damage.

NOTICE
