

WHAT IS EVAPORATIVE COOLING?

**EVAPORATIVE COOLING
IS NOT AIR CONDITIONING!**

Advantages over A/C

- Completely portable
- No need to duct heat exhaust
- Uses less energy - under 3 amps!
 - No chemicals needed
- Standard 115V power supply

**EVAPORATIVE COOLING
DOES MORE THAN FANS!**

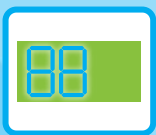

Advantages over fans

- Cools the air using evaporation!
 - Does not re-circulate hot air
- Units cool from 125 to 400 sq. ft.
 - Timer and remote control
 - No fan blades

**Energy
Efficient!**

Timer and
Remote Control
