

## Outdoor Water Solutions™ – Lake & Pond Muck Pellets

Outdoor Water Solutions™ Lake & Pond Muck Pellets is a proprietary blend of environmentally friendly, nontoxic, biodegradable pellets containing sludge-eating bacteria, enzymes and trace minerals. This product naturally eliminates odor-causing muck on beaches, in swimming areas and around docks and other areas of your pond, lake or lagoon. Contains no gypsum fillers.

### Application Rate

Spot Treatment for around a dock, pier, beach or problem area:

Use 4 lbs. per week for 4 weeks; then 1 lbs. every other week as needed. At this rate, 25 lbs. will treat up to 2,000 sq ft for a five month season. For an area 4,000 sq. ft, use 8 lbs. per week for the first 4 weeks, then 2 lbs. every other week as needed. At this rate, 50 lbs. will treat for a five month season.

*Total Coverage for whole water body treatment:*

125 lbs. per surface acre (3 lbs. per 1,000 sq ft), Broadcast pellets uniformly over surface. Use 2 – 4 times per year.

### STORAGE AND HANDLING:

Product should be kept in its original container until use. Product can freeze. The use of rubber gloves is recommended when handling this product.

### WATER USE RESTRICTIONS:

Water treated with this product may be used for fishing, swimming and/or irrigation immediately following treatment.

### CAUTION: KEEP OUT OF REACH OF CHILDREN

Avoid contact with the skin, eyes and clothing. Wash with soap and water following use.
