

Why is **OWS Deep BLUE DYE** so important for ponds?

OWS Deep Blue Dye is formulated to provide ponds with a blackish-blue appearance. One single quart of OWS Deep Blue Dye will treat up to one surface acre 4' – 6' deep, for several months, depending on rainfall. OWS Deep Blue Dye should be used all year long.

OWS Deep BLUE DYE

4X CONCENTRATED!

QUICK DOSE CHART

Use 1-2 quarts per surface acre, 4-6 ft. deep, every 4-8 weeks or as needed. 1 Quart Treats Like 1 Gallon

HOW TO APPLY: Shake well before use.

Simply pour OWS Deep Blue Dye in several spots along the pond's edge – no mixing required. One single quart of OWS Deep Blue Dye is equivalent to one gallon of other diluted pond and lake colorants.

WHEN TO APPLY: For year-long beauty, apply in early spring. Water temperature has no effect on OWS Deep Blue Dye and should be applied monthly or as needed to maintain a blackish-blue appearance all season long. Heavy rain and/or intense sunlight may require additional treatments of pond dye.

WATER USE RESTRICTIONS:

OWS Deep Blue Dye may be applied to lakes and ponds used for irrigation and aquaculture. Water treated with OWS Deep Blue Dye may be used for recreation, fishing and other activities immediately after treatment. Safe for recreational ponds, horses, livestock, birds, pets, fish, wildlife and the environment. *Do not apply to water that will be used for human consumption.*

STORAGE AND HANDLING:

Keep product in original container and closed when not in use. Store in a cool, dry place. Do not allow it to freeze. Wear rubber gloves when handling. Avoid contact with skin, eyes and clothing. Wash with soap and water after use. If ingested in large amounts, induce vomiting. For small cleanups and surface stains, use a diluted bleach solution.

ATTENTION:

Failure to use as directed, or sudden changes in water conditions not consistent with label, may result in the loss or injury of aquatic life. OWS is not responsible for any loss of aquatic life.
