**DISCLAIMER:** Neither Butterfly Safety Products LLC nor any manufacturer or distributor of the Butterfly Smoke Seal® products shall assume any liability from the use of any or all Butterfly Safety Products. Use of these products is only one part of an effective home fire safety program. Contact your local fire department or authorities for details on how to develop and maintain an effective home or business fire safety program. Failure to follow an effective home fire safety program may result in injury or loss of life.

**MAINTENANCE:** It is recommended to replace glow stick after 1 year, ideally when replacing smoke detector batteries during annual maintenance programs in October (Fire Safety Month).
