Product Dim (in)	25 5/16 H x 22 5/16 W x 9 1/2 D	21 11/16 H x 18 5/16 W x 9 D	21 11/16 H x 18 5/16 W x 9 D
Blower	factory installed	not included	factory installed

## Air Circulation

The powerful heater takes in outside air for combustion through a specially designed double-walled vent. All the by-products of combustion are directly vented outside.

## Ideal for Zone Heating

Heat your home more efficiently and save money on energy costs by utilizing your heater in the rooms that are used most. Turn down your home's central furnace thermostat and lower your utility bill.

## Saves Energy

Zone heating allows you to efficiently heat the room you're in, saving energy and money by letting you turn down the thermostat on your central furnace. Optional thermostat is included.

## Simple to Use

Matchless piezo ignition quickly lights, making it easy to operate. Thermopile Safety Valve instantly shuts off the gas if the flame ever goes out. Optional thermostat (included) maintains temperature all day (and night).

## Heats without Electricity

Works in a power outage; optional blower requires electricity.

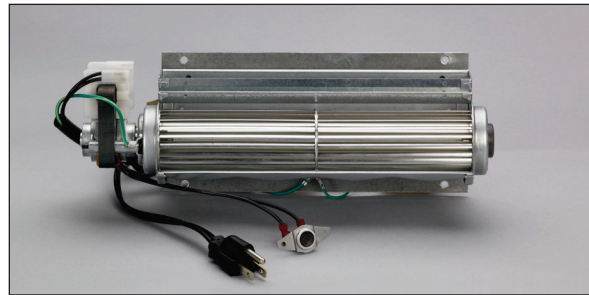

Note: Empire Comfort Systems is committed to continuous product improvement; specifications are subject to change without notice.

## Vinyl Siding Protector Included

If the unit is vented to vinyl siding install the included vinyl siding protector.

## Automatic Blower Accessory

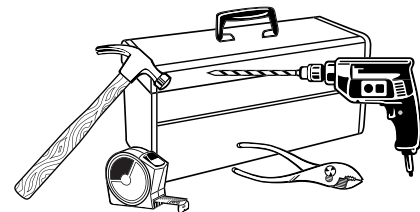

Model #	HW125SCB
Actual Wt (lb)	3
Actual Dim (in)	3 ½ H x 12 ½ W x 3 D
CFM	CFM125
Features	Automatic heat sensor switch activates blower

## Easy to Install

Tools needed for installation

- 5/16 Nut Driver
- Phillips Screwdriver
- Adjustable Wrench
- Silicon-based Sealant
- Power Tools  
(depends on wall composition)
