

BETTER BUILT 1 YEAR LIMITED WARRANTY

This 1 YEAR LIMITED WARRANTY is made by Daws Manufacturing Company Inc. to the original retail purchaser of Better Built® products. Daws Manufacturing Company, Inc. will repair or replace any Better Built® private licensed Better Built® product found to be defective in materials. Components such as but not limited to shocks, trays, locks, and latches carry a limited three year warranty. This warranty is effective from the date of purchase by the original retail purchaser on the Better Built® aluminum truck tool boxes.

This warranty shall not apply if the Better Built® product has been subject to misuse, abuse, improper installation, modification, or improper maintenance. This warranty does not cover the cost of installation, removal, labor, inconvenience, or other incidental charges that may be incurred. The retail purchaser assumes all risk and liability whatsoever for the installation and use of the Better Built® toolbox.

DAWS MANUFACTURING COMPANY, INC. SHALL NOT BE LIABLE FOR ANY INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF ANY BREACH OF THIS WARRANTY, NOR SHALL THE DAMAGES EXCEED THE AMOUNT OF THE PURCHASE PRICE PAID BY THE ORIGINAL PURCHASER. DAWS MANUFACTURING COMPANY, INC. MAKES NO OTHER WARRANTIES, EXPRESSED OR IMPLIED, AND ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE WHICH EXCEEDS THE FORGOING IS HEREBY DISCLAIMED AND EXCLUDED FROM THESE WARRANTIES.

These warranties are valid only when the original purchaser retains ownership of the Better Built® toolbox and products are attached to the original equipment upon which they are installed.

Better Built® truck toolboxes are designed and sold for storage purposes only and should not be considered as protection for the vehicle or passengers in the event of an accident. Daws Manufacturing Company, Inc. assumes no liability for injury, loss, incidental or consequential damages in the event of a collision or rollover.

The powder coating on aluminum Better Built® truck tool boxes, is warranted for a period of one year from the original date of purchase. This warranty is limited to the peeling of the original powder coating from the aluminum surface to which it was applied. This warranty DOES NOT cover scratches, chipping, or fading of the original coating due to normal use and/or abuse of the product.

The warranties, both expressed and implied, of manufacturers of components used in Better Built® toolboxes shall apply to such components.

In the event of any breach of any warranty covering Better Built® toolboxes, the sole and exclusive remedy of original retail purchaser shall be limited to the repair or replacement of defective products or parts. Removal of the date of manufacture label placed on the product will void the warranty. Installation of any Better Built® toolbox in any manner other than that recommended by Daws Manufacturing Company, Inc. will void the warranty.

For more information about this warranty, obtaining replacement parts, installation, or service, of Better Built® products, please call Daws Manufacturing Company, Inc.'s customer service department at 1-800-366-8269. Proof of purchase, showing date of sale, must be retained by the original retail purchaser for a valid warranty claim to be made on any Better Built® toolbox product.

TRUCK BOX ACCESSORIES

Truck Box Polish

Give your truck box that "Like new" shine! Also works great on any non-coated metal material.

Stake Pocket Pop-up

Our tie down anchors are as rugged as they are convenient. Easy to install, these steel brackets fit easily into the stake pocket of your truck. When not in use the loop lays flush with the base bracket. Comes in set of two.

Truck Box Mat

Non-Slip liner protects your tools from wear and stops sliding around while driving. Durable and easy to clean, Comes in "Better Built Blue," and is easy to install as you just cut it to fit your truck box. Original size is 16 1/4" X 58".

LED Light

Our convenient truck box light has five super bright LEDs with 3 usage settings that will surely illuminate your whole space in the dark. Fits perfectly inside any of our truck boxes.

5 Pocket Utility Tray

Great addition to your truck box for organizing small parts. Made from super durable plastic and easy to clean.

Grip-Rite® No-Drill Mounts

Don't drill holes in your truck. Use Better Built's Grip Rite® truck box mounting system to install your truck tool box without damaging your truck bed.

⚠ DANGER ⚠ READ AND FOLLOW ALL SAFETY PRECAUTIONS AND INSTRUCTIONS BEFORE USE. USE ONLY FOR STORING OR TRANSPORTING TOOLS, EQUIPMENT, AND SIMILAR MATERIALS. DO NOT PUT FLAMMABLES, FUELS, EXPLOSIVES, OR HAZARDOUS MATERIALS IN THIS PRODUCT. DO NOT MODIFY OR USE THIS PRODUCT IN ANY UNINTENDED OR UNREASONABLE WAY. AVOID CLOSING LID ON HANDS OR FINGERS. BEWARE OF POSSIBILITY OF INJURY OR DEATH AS A RESULT OF MISUSE OF THIS PRODUCT.

Better Built would like to thank you and congratulate you on your purchase of a quality Better Built® product!

2. STANDARD TOOL BOX INSTALLATION INSTRUCTIONS:

- Place tool box across truck bed directly behind cab, leaving a small air space between box and front bulkhead of truck bed.
- Be sure the lid will not contact the truck cab when open.
- **Install strips provided** to cushion tool box on truck bed rail.
- On opposing ends of tool box **drill 1/4" hole in top lip of tool box 1" from end of box**, being sure to drill into truck body. Secure with **3/8" sheet metal screws**. Secure no more than **one screw at each end** of tool box. **USING MORE THAN ONE SCREW ON EACH END OF TOOL BOX** (i.e. putting screws in each of the four corners of tool box to bind the box to truck bed) **WILL VOID THE WARRANTY** for the tool box.

1. STANDARD TOOLBOX INSTALLATION INSTRUCTIONS WITH GRIP RITE MOUNTING SYSTEM (SOLD SEPARATELY)

Better Built® tool boxes have **pre-punched knock-outs** in box ends for use with Grip Rite System.

- To use Grip Rites to mount tool box, **push knockouts out of the way**. (Only one-half of slot is needed) Use only opposing slots on each side of tool box. (Using off-setting Grip Rite positions may cause lid to bind and operate improperly.)
- **Place tool box across truck bed directly behind cab** leaving a small air space between tool box and front bulkhead of truckbed. Be sure the lid will not contact the truck cab when open.
- **Install provided strips** to cushion tool box on truck bed rail. Mark positions of Grip Rite slots on truck bed rail.
- **Remove tool box. Attach Grip Rites in positions** as marked. (See Grip Rite Installation Instructions on package.) Place tool box back into position. Bolt Grip Rites. **USING MORE THAN ONE GRIP RITE ON EACH SIDE IS UNNECESSARY AND WILL VOID TOOL BOX WARRANTY.**

DON'T DRILL HOLES IN YOUR TRUCK!

Use of Grip Rite System **avoids drilling holes** in rails of pickup.

Better Built® recommends Grip Rite No Drill Mounting System for tool boxes.

* Available in stores.

CHROME HANDLE MAINTENANCE

In order to **maintain** the finish of your **chrome pull handle latches** wash them with mild soap and water whenever you wash your truck. **Do not use abrasive, ammonia-based, or acid cleaning solutions.** To keep your pull handle latches looking new use a light coat of chrome polish, available at most auto parts retailers, once every 3 months. **If you live near the ocean or where salt is used on the roads it is highly recommended you follow the instructions listed above.**

TRUCK BOX MAINTENANCE

To keep the tool box looking as **new and shiny** as possible, **wash and wax the tool box** at the same time as the pickup. Use **Diamond Brite Truck Box Polish** or a gentle aluminum or mag wheel polish to maintain shine. A light lubrication of oil is recommended for the hinge after washing. **Soap, water, and sunlight tend to remove the oil film** placed on the hinge prior to shipment.
