Mobile Light Towers

GENERAC®
MAGNUM

Big Lighting Power in a Compact Package

MLT6S | MLT8S Series

Everyone is looking for ways to make the jobsite more efficient. That's why the Generac|Magnum MLT6 and MLT8 series mobile light towers are designed to provide maximum lighting and power while minimizing the space used. But we didn't stop there. The MLT6 and MLT8 series sets up in just 1 minute and then offers up to 90 hours of continuous run time without refueling. The rear flip hood compartment provides unobstructed service access. Available engine options extend run times to 750 hours between service intervals. Externally illuminated controls and cabinet improve visibility and operator safety at night. With all these features and more, the MLT6 and MLT8 series is leading the way in jobsite efficiency.

The Leading Light Tower Option For

-  Light Construction Sites
-  Events
-  Rental
-  Roadwork

MLT6S and MLT8S features:

- Corrosion proof poly shell withstands tough applications, looks better longer
- Vertical Mast for quicker, easier operation and more compact storage
- 360° ground rotation mast for total illumination on-site
- Fully enclosed ergonomic 2-handled manual winch
- Exterior illuminated controls and convenience outlets
- Compact storage/transport size; allows up to 19 towers on a 53' flatbed

All Generac|Magnum Light Towers are built and serviced in the USA.
