

Instructions: Deluxe Camper Cover

Note: Only for use on pickup campers stored off the truck.

⚠ Warning:

Installation is best done with two people. **Never install on a windy day or when the roof is slippery. Please take care when you are on a ladder or the roof. If you go on your camper's roof, be careful to stay toward the back half—if you go out too far to the front your camper could tip forward.**

CAUTION

Please consult your RV owners manual.

Installation

1. Cover any sharp edges with duct tape or a sponge and put roof antennas in the down position (they adjust with a screwdriver).
2. Drape your Camper Cover over your pickup camper. The zippered panel goes at the back.
3. Adjust the strap length on the white tension panels across the overhang of your camper. Don't over tighten—the straps should be snug, not drum tight. To attach the straps into the side-release buckles just insert the clip into the buckle. To release the buckle press the buttons on both sides and pull the clip out of the buckle.
4. Tie an end of one of the supplied pre-cut ropes onto one of the D-rings along the bottom hem. Put a small rock in the provided toss bag, close the top and tie the free end of the rope to the bag D-ring. Now toss the bag and rope under your RV to the D-ring on the opposite side. Take the rope off the bag and tie it to the D-ring. Repeat with the remaining D-rings.

5. Adjust all the straps and ropes for a snug fit. The back and side panels can be unzipped so that you can access the door and windows to your camper. You can keep them open by rolling up and attaching rip-and-grip strips at the top of your cover.

Use and Storage

A handy storage bag is provided. To fit your cover in the bag fold and roll it tightly rather than stuffing it. Never store a wet cover in the storage bag or confined area as the cover can be damaged by mildew.

Care

Clean your Camper Cover with a hose or with a soft rag. Do not use soap as it could damage the protective coatings on the fabric.
