

DOT-C2 SAFETY TAPE
SERIES DTC
SPECIFICATION SHEET

PRODUCT FEATURES:

- DOT-C2 Compliant
- Highly visible reflective tape
- Commercial grade
- Made of premium materials
- Operating temperature between -40 degrees to 220 degrees Fahrenheit,
- Waterproof and UV resistant
- Easy to install - Simply cut to size, peel and apply
- Meets the National Highway Traffic Safety Administration (NHTSA) standards

TECHNICAL DATA:

- Thickness:
 - .35 mm
- Size options (WxL):
 - 2" x 30'
 - 2"x150'
- Application Temperature
 - 39°F and above
- Operating Temperature Range
 - -40°F-220°F
- Water resistant
- DOT-C2 Markings on tape
- COO: China

STANDARDS & COMPLIANCE:

- Meets & exceeds DOT-C2 standards
- NHTSA Compliant

APPLICATIONS & CARE:

For trailers, red and silver tape must be used for the back and bottom. It must cover at least half of the total side length, the entire bottom of the back, and the entire lower rear bar.

Silver (or white) tape must be used for the upper rear of the trailer, in the shape of a 12-inch inverted "L" on each side. DOT C2 reflective tape requirements are outlined and enforced by the Federal Motor Carrier Safety Administration (FMSCA), which operates as a part of the Department of Transportation to "prevent commercial motor vehicle-related fatalities and injuries.

Our tapes are simple to use and apply - just measure, cut to length then apply our DOT-C2 tape to clean dry surface.
