

### SECTION 3: Composition/information on ingredients

#### Mixtures

#### Components

| Component                                                                                                        | Concentration      |
|------------------------------------------------------------------------------------------------------------------|--------------------|
| Water (CAS no.: 7732-18-5; EC no.: 231-791-2)<br>CLASSIFICATIONS: No data available. HAZARDS: No data available. | 75 - 85 % (weight) |
| Other ingredients<br>CLASSIFICATIONS: No data available. HAZARDS: No data available.                             | 15 - 25 % (weight) |

#### Trade secret statement (OSHA 1910.1200(i))

\*The specific chemical identities and/or actual concentrations or actual concentration ranges for one or more listed components are being withheld as trade secrets under the US regulation 29 CFR 1910.1200(i).

### SECTION 4: First-aid measures

#### Description of necessary first-aid measures

|                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|-------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| If inhaled              | If breathed in, move person into fresh air. If not breathing, give artificial respiration.                                                                                                                                                                                                                                                                                                                                                              |
| In case of skin contact | If irritation develops, rinse with water.                                                                                                                                                                                                                                                                                                                                                                                                               |
| In case of eye contact  | Flush eyes with water as a precaution.                                                                                                                                                                                                                                                                                                                                                                                                                  |
| If swallowed            | Call a poison center or doctor if you feel unwell. If vomiting occurs naturally, have victim lean forward to reduce the risk of aspiration. Do NOT induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person.<br><br>Acute and delayed symptoms and effects: May cause gastrointestinal irritation. Signs/symptoms may include abdominal pain, stomach upset, nausea, vomiting and diarrhea. |

#### Most important symptoms/effects, acute and delayed

Not applicable

#### Indication of immediate medical attention and special treatment needed, if necessary

Not applicable

## **SECTION 5: Fire-fighting measures**

### **Suitable extinguishing media**

Use extinguishing media appropriate for surrounding fire.

### **Specific hazards arising from the chemical**

-----

Sodium sulfate: Sulphur oxides, Sodium oxides

### **Special protective actions for fire-fighters**

Wear self-contained breathing apparatus for firefighting if necessary.

## **SECTION 6: Accidental release measures**

### **Personal precautions, protective equipment and emergency procedures**

None required under normal use conditions

### **Methods and materials for containment and cleaning up**

Soak up with inert absorbent material (e.g. sand, silica gel). Keep in suitable, closed containers for disposal.

## **SECTION 7: Handling and storage**

### **Precautions for safe handling**

Avoid contact with skin and eyes. Do not eat, drink or smoke while handling. Wash hands with soap and water after handling. For precautions see section 2.

### **Conditions for safe storage, including any incompatibilities**

Store in a well ventilated place. Keep container tightly closed. Store between the following temperatures: 40 and 120 Fahrenheit and out of direct sunlight and away from incompatible materials. See Section 10 for information on Incompatible Materials. Keep out of reach of children.

## **SECTION 8: Exposure controls/personal protection**

### **Appropriate engineering controls**

General industrial hygiene practice.

### **Individual protection measures, such as personal protective equipment (PPE)**

#### **Eye/face protection**

Eye/Face Protection: None required with normal household use.

Industrial Setting: For splash protection, use chemical goggles. Eye wash fountain is recommended.

#### **Skin protection**

Skin Protection: None required with normal household use. Industrial Setting: Protective gloves (for hands) and protective clothing may be required where repeated or prolonged skin contact may occur.

#### **Respiratory protection**

No special precautions for casual exposure. Ventilation Local Exhaust: None required with normal consumer use.

Special: None. Industrial (General): Normal/general dilution ventilation is acceptable. Air contamination monitoring should be carried out where mists or vapors are likely to be generated, to assure that the employees are not exposed to airborne contaminants above the permissible exposure limits.

## SECTION 9: Physical and chemical properties

### Basic physical and chemical properties

|                                                          |                                  |
|----------------------------------------------------------|----------------------------------|
| Physical state                                           | Liquid                           |
| Appearance                                               | Pink Clear Liquid                |
| Color                                                    | Pink                             |
| Odor                                                     | Mild Cherry Odor                 |
| Odor threshold                                           | Not applicable                   |
| Melting point/freezing point                             | 23°F                             |
| Boiling point or initial boiling point and boiling range | 212°F                            |
| Flammability                                             | Not flammable                    |
| Lower and upper explosion limit/flammability limit       | Not applicable                   |
| Flash point                                              | Not applicable                   |
| Auto-ignition temperature                                | Not applicable                   |
| Decomposition temperature                                | Not applicable                   |
| pH                                                       | 8.5                              |
| Kinematic viscosity                                      | Not available                    |
| Solubility                                               | 100%                             |
| Partition coefficient n-octanol/water (log value)        | Not available                    |
| Vapor pressure                                           | 0.6 PSI @ 77°F, 2.05 PSI @ 100°F |
| Evaporation rate                                         | 1/2 Butyl Acetate @ 25°C         |
| Density and/or relative density                          | 1.03                             |
| Relative vapor density                                   | Not available                    |

### Particle characteristics

Not applicable

### Supplemental information regarding physical hazard classes

Not applicable

### Further safety characteristics (supplemental)

Not applicable

## SECTION 10: Stability and reactivity

### Reactivity

None under normal use conditions.

### Chemical stability

Stable under recommended storage conditions.

### Possibility of hazardous reactions

None under normal use conditions.

### Conditions to avoid

Avoid storing in direct sunlight and avoid extremes of temperature.

### Incompatible materials

No data available.

### Hazardous decomposition products

No data available.

## **SECTION 11: Toxicological information**

### **Information on toxicological effects**

#### **Acute toxicity**

Based on available data, classification data are not met

#### **Skin corrosion/irritation**

Based on available data, classification data are not met

#### **Serious eye damage/irritation**

Based on available data, classification data are not met

#### **Respiratory or skin sensitization**

Based on available data, classification data are not met

#### **Germ cell mutagenicity**

Based on available data, classification data are not met

#### **Carcinogenicity**

ACGIH: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by ACGIH.

NTP: No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

OSHA: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA.

#### **Reproductive toxicity**

Based on available data, classification data are not met

#### **Specific target organ toxicity (STOT) - single exposure**

Based on available data, classification data are not met

#### **Specific target organ toxicity (STOT) - repeated exposure**

Based on available data, classification data are not met

#### **Aspiration hazard**

No data available

## **SECTION 12: Ecological information**

### **Toxicity**

Based on available data, classification data are not met

## SECTION 13: Disposal considerations

### Disposal methods

#### Product disposal

Dispose of contents/ container in accordance with the local/regional/national/international regulations. Non Household Setting: Products covered by this SDS, in their original form, when disposed as waste, are considered non hazardous waste according to Federal RCRA regulations (40 CFR 261). Disposal should be in accordance with local, state and federal regulations. Solutions of diluted detergent in the course of use, may be allowed to be flushed down sewer. First check with your local water treatment plant. Recycling is undiluted scrap product. Do not landfill. Household Use: Household product is safe for disposal down the drain during detergent use or in the trash. Dispose of empty bottle in the trash or recycle where facilities exist.

## SECTION 14: Transport information

### DOT (US)

Not dangerous goods

### IMDG

Not dangerous goods

### IATA

Not dangerous goods

## SECTION 15: Regulatory information

### Safety, health and environmental regulations specific for the product in question

#### California Prop. 65 Components

This product does not contain any chemicals known to State of California to cause cancer, birth defects, or any other reproductive harm.

This product does not contain any chemicals known to State of California to cause cancer, birth defects, or any other reproductive harm.

Coconut oil diethanolamine -cancer

This product does not contain any chemicals known to State of California to cause cancer, birth defects, or any other reproductive harm.

#### Canadian Domestic Substances List (DSL)

Chemical name: Water

CAS: 7732-18-5

Chemical name: Component 12 (K(OH))

CAS: 1310-58-3

Chemical name: Diphosphoric acid, tetrapotassium salt

CAS: 7320-34-5

Chemical name: Glycine, N,N'-1,2-ethanediylbis[N-(carboxymethyl)-

CAS: 60-00-4

Chemical name: Amides, coco, N-[3-(dimethylamino)propyl], alkylation products with chloroacetic acid, sodium salts

# Safety Data Sheet

## Pinky's Foaming Car Wash

Version 1.0 • Date of issue: 2023-03-16

CAS: 70851-07-9

Chemical name: Amines, coco alkyldimethyl

CAS: 61788-93-0

Chemical name: Amides, coco, N,N-bis(hydroxyethyl)

CAS: 68603-42-9

Chemical name: 1-Propanaminium, 3-amino-N-(carboxymethyl)-N,N-dimethyl-, N-coco acyl derivs., hydroxides, inner salts

CAS: 61789-40-0

Chemical name: 9-Octadecenoic acid (Z)-

CAS: 112-80-1

Chemical name: Component 10

CAS: 61790-12-3

Chemical name: Sulfuric acid disodium salt

CAS: 7757-82-6

Chemical name: Alkenes, C<sub>8</sub>-C<sub>10</sub> α-

CAS: 64743-02-8

Chemical name: Component 11

CAS: 68439-57-6

Chemical name: Poly(oxy-1,2-ethanediyl), α-(4-nonylphenyl)-ω-hydroxy-

CAS: 26027-38-3

### Massachusetts Right To Know Components
