

Ready to shock

Unique Pediatric-Pak

Ensures the guidelines-recommended energy level is delivered for children, between 1 and 8 years of age or up to 55 lb (25 kg).

High level of protection from dust and water

Offers IP56 rating, one of the highest ratings in the industry.

Clinically validated technology

Advanced electrode technology and SCOPE (Self-Compensating Output Pulse Envelope) biphasic technology, a low energy escalating waveform that automatically adjusts for differences in patient impedance.

Highly portable

With the lightest weight and most compact footprint among leading AEDs, is easily transported and fit into constrained spaces.

Easy-to-follow visual and verbal guides

User-friendly

Easy-to-understand visual and voice prompts guide the rescuer through the entire resuscitation process, including CPR.

One- or two-button operation

With just an ON/OFF button (and the SHOCK button on the SAM 350P), offers a simple, straightforward operation.

Automatic shock delivery / Motion detection

Fully automatic SAM 360P* detects motion, such as performing CPR or moving the patient, to reduce the likelihood that the user is touching the patient prior to shock delivery.

Ready for use

The status indicator flashes to show the system has passed the automatic weekly self test and is ready for use.

Simple to own

Two parts, one expiration date

The innovative Pad-Pak, an integrated battery and electrode single-use cartridge with one expiration date, offers one simple maintenance change every four years.

Low cost of ownership

Shelf life of four years means that the Pad-Pak may offer savings over other defibrillators that require separate battery and electrode replacements.

8-year warranty

Backed by an 8-year limited warranty.

* Warning: The SAM 360P is a fully automatic defibrillator. When required, it will deliver a shock to the patient without user intervention.
