

Ready-to-use cleaning solution  
for biological parts washer

# TECHNICAL DATA SHEET

Nonfood Compounds  
A1

## BLUELIQUID SRBLPE+

Aqueous solution designed for industrial cleaning of mechanical parts, composed of specific surfactants. Formulated to remove and eliminate from surface, the following kind of soiling: grease, oil, solids, carbonaceous residues, various deposits. It's specifically developed for bioremediation of oils and greases : **BLUEREMEDIS Tab process**.

FOR PROFESSIONAL USE

READY-TO-USE

EFFICIENT

BIODEGRADABLE

SOLVENT-FREE

NON-HAZARDOUS

## Instructions for use

This solution is used directly, without dilution. Can be used on most plastics, ferrous and non-ferrous metals. It respects the environment and the health and safety of operators.

When installing your biological parts washer, add 1 micro-organisms concentrate tablet to implement the **BLUEREMEDIS Tab process**. Then, depending on frequency of use, add one tab every 4 to 6 weeks.

## Properties

Color	Pale blue
Aspect	Clear
Scent	None
pH	9 – 9.7
density	1.00 – 1.01
Temperature of use	68 – 113°F for the <b>BLUEREMEDIS Tab process</b>
Composition	Non-ionic surfactants: <5% Cationic surfactants: <5% EDTA: <5%

For further information, please contact us or see the SDS for this product.

**Recommendations:** the product has specific corrosion inhibitors for temporary protection between operations but we recommend performing tests in order to validate the correct protocol to use. Compatibility tests should be performed with sensitive metals such as zinc, brass and aluminium alloys... Limit the soaking time (never soak a part all night long). It is however not long lasting protection for which we recommend to apply a special protective film.

## Storage

Store in normal storage conditions and away from light. Avoid frost.

## Product reference packaging

This solution is water soluble.

**PFCOFOL21P-100: 5 gal canister**

## Disposal considerations

Do not drain the solution to the sewerage system; it must be treated in compliance with current regulation.
