

Packing Extraction Tool Kit**TOOLS INCLUDED IN KIT**

Part Number	Description
2530016	Slide Hammer
2530017	Bolt
2530018	Pin
2530019	13 mm Collet
2530020	15 mm Collet
2530062	16 mm Collet
2530021	18 mm Collet
2530022	20 mm Collet
2530023	22 mm Collet
2530024	24 mm Collet
100783	Complete Kit

General Pump
is a member of
the Interpump Group

Ref 300688 Rev. B
10-23

SERVICING INSTRUCTIONS

1) Remove manifold from crankcase.

2) Assemble slide hammer onto slide and thread into pin until it bottoms out.

3) Select the correct diameter collet for manifold and thread onto pin **ONLY FINGER TIGHT**.

Note: Refer to pump owners manual for correct fitment.

Note: Same diameter as plunger on pump.

4) Insert assembly collet side into packing

5) Using two wrenches, tighten pin into collet until it is secure in the packing retainer.

6) Push the slide hammer towards the packing and then forcefully pull it back towards the opposite end to remove packing retainer, repeat and adjust force as needed.

7) Once removed, release pressure off of collet and packing by unthreading the pin from collet, do not fully remove pin.

8) While holding the packing retainer repeat step 6 to remove packing form collet.
