**SPECIFICATION
BULLETIN**
#SPC-FR-067
REV. 12-16

Model DIG-R35 foldable cooking grate lifts up for easy access. (Shown with round fire pit constructed of landscaping stones without an insert).

Model DIG-R35 foldable cooking grate. (Shown with round fire pit constructed of landscaping stones without an insert).

SPECIFICATIONS:

- **Model DIG-R35** is a hinged, Foldable Cooking Grate designed for use on backyard fire pits.
- The two sections of this cooking grate mate together with hinge pins. It folds in half for easy transport or storage. Does not require any fasteners.
- Unfold the cooking grate to its full diameter of 34.5 inches and place on top of your fire pit. One side of the grate can be lifted up and over center. It will not fold all the way over so your food on the other half is not disturbed. The folded grate will stay in place so you have both hands free to tend to the fire on the open side. A lifting tool is included.
- All 10 ga. (.1345 inch) steel fabrication, precision laser cut. Finished with high temp, non-toxic black enamel paint. Season the grate before first use.
- Easy assembly: the two halves slip together at hinge points. No tools required.
- Made in the USA.
- **Ships in one box.**
Shipping Weight: 25 lbs.
