#SPC-FR-059
REV. 12-14**

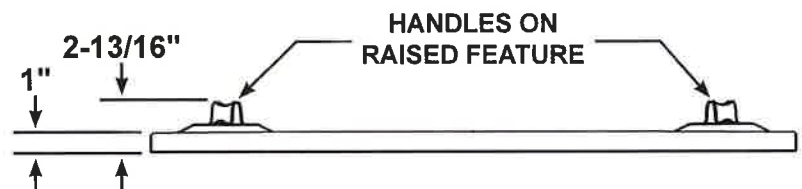

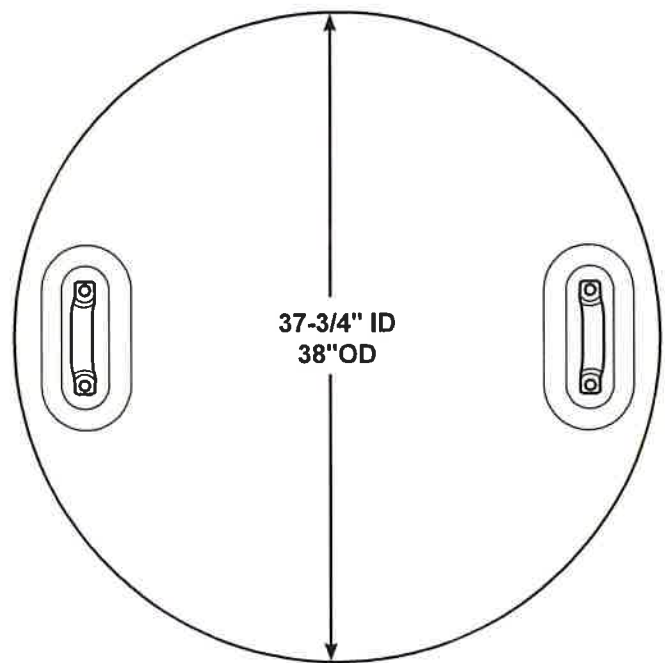

Model IAC-30 Firepit Cover shown on a firepit constructed of landscaping stone. Landscaping stone not included.

Closeup detail of a handle

SPECIFICATIONS:

- The **IAC-30 Firepit Cover** is designed to be placed over firepits constructed of landscaping stone or firerings for the purpose of snuffing out fires and keeping debris, snow, and rain from collecting in the pit. The cover will fit over pit openings or rings with a 37-1/2" or less diameter.
- The cover is constructed of 16 ga. pregalvanized steel with an inside diameter of 37-3/4". The outside edge of the cover has a roll-formed 1" downward flange.
- Two galvanized handles are mounted on die-formed raised features on the top of the cover to facilitate lifting and positioning. **CAUTION:** A cover left over a fire for a period of time can become hot causing serious burns when handled. Wear protective gloves when handling.
- Fits on firepit inserts: IO-30/8, IX-27, IX-30, and IX-31.
- The cover ships in a cardboard box, weights 17 lbs.

FEATURES

- 16 ga. Pregalvanized Steel construction**
- Two handles**
