SAVE THESE INSTRUCTIONS

WORK AREA

When assembling or operating the dolly

- **Keep work area clean**, free of clutter and well lit. Cluttered and dark work areas can cause accidents.
- **Keep children and bystanders** away while assembling or working with the dolly. Distractions can cause loss of control, so visitors should remain at a safe distance from the work area.
- **Be aware of all power lines, electrical circuits**, water pipes and other mechanical hazards near your work area, particularly those hazards below the work surface hidden from the operator's view that may be unintentionally contacted and may cause personal harm or property damage.

PERSONAL SAFETY

- **Stay alert**, watch what you are doing and use common sense when using the dolly.
- After adjusting backplates, make sure the T-HANDLE set screws have been locked.

DOLLY USE AND CARE

- **Do not modify the dolly in any way** . Unauthorized modification may impair the function and/or safety and could affect the life of the equipment. There are specific applications for which the dolly was designed.
- **Always check for damaged or worn parts before using the dolly**. Broken parts will affect the dolly operation. Replace or repair damaged or worn parts immediately.
- **Do not exceed the dolly 600-lb. load capacity**.
